SUMMARY

Aspiring Software Developer with a strong background in Full Stack Development. Skilled in building scalable web applications, with expertise in frontend and backend technologies, database management. Possess strong problem-solving abilities and eager to contribute to innovative and efficient software solutions.

EXPERIENCE

Console2Success

Nov 2025– Feb 2026

Frontend Developer Intern (React.js)

- Designed and developed dynamic, production-ready frontend modules using React.js, focusing on performance optimization and responsive UI architecture
- Integrated backend APIs and implemented asynchronous data fetching to deliver dynamic user interfaces
- Contributed to real-world projects by improving existing code, reducing redundancy, and enhancing overall application scalability

PROJECTS

CodeBlock A Coding Platform | MERN Stack, Judge0 API, JWT, Tailwind CSS

- Developed a full-stack coding platform enabling users to solve coding problems, execute code, and submit solutions in a competitive programming environment
- Integrated Judge0 API for real-time multi-language code compilation and execution with automated verdicts such as Accepted, Wrong Answer, and Time Limit Exceeded
- Implemented secure JWT-based authentication, protected routes, and user session management to ensure secure access control and personalized experiences
- Designed interactive problem pages with difficulty filters, tags, code editor integration, and submission history tracking for enhanced usability
- Built a responsive analytics dashboard to monitor user progress, submission statistics, and coding activity using Tailwind CSS and modern UI practices

Coupon Marketplace Platform | MERN Stack, Tailwind CSS, Razorpay, Nodemailer, JWT

- Developed a full-stack marketplace platform enabling users to securely buy and sell coupons with a smooth and intuitive user experience
- Integrated Razorpay payment gateway for secure transactions and implemented OTP-based account verification to prevent fraudulent activities
- Implemented JWT-based authentication and session management to ensure secure access control and data privacy
- Built using MongoDB, Express.js, React.js, and Node.js with a scalable architecture, modular code structure, and responsive design for cross-device compatibility

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB

Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures & Algorithms, OOP, REST APIs

EDUCATION

Accurate Institute of Management and Technology, Greater Noida

Oct 2023 – June 2027

Bachelor of Technology in Computer Science & Engineering , CGPA: 8.29/10

RK International School, Uttar Pradesh

Apr 2022 – May 2023

Higher Secondary (XII), Percentage: 83.20%

ACHIEVEMENTS

- Winner of Code-a-thon 1.0, organized by MIET, Greater Noida
- Solved 350+ DSA problems on LeetCode with strong grasp of algorithms and optimization techniques
- Achieved 1400+ rating on CodeChef, demonstrating consistent competitive programming performance
